

Amendments to the Claims

This listing of claims will replace all prior versions, and listing, of claims in the application.

Listing of Claims:

Claim 1 (Original): A small footprint device comprising

- a. at least one processing element;
- b. memory,
- c. a context barrier for isolating one program module from at least one other program module using said memory and processing element, and
- d. an entry point object for permitting one program module to access one other program module across said context barrier.

Claims 2-29 (canceled)
